DETAILED ACTION

1. This office action is in response to the applicants' communication received on June 6, 2008; February 20, 2008; and June 11, 2007.
2. Claims 1-78 are presented for examination. Applicants have not amended, cancelled, or add any new claims.
3. Applicants' arguments with respect to claim 1-78 have been considered but they are deemed to be moot in view of the new grounds of rejection.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 42, 54, 60, 61, 64, 65, 67, 68, 69, 70, 71, and 72 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitation for these respective independent claims recite ***"using at least identification information"***. It is understood that the claim limitations create and/or produce license information, however what appears to be missing from the limitation of the claims is clarity involving the type of identification information that is used to produce the license information. Also, after the ***"identification information"*** is used, then what happens to the processing of the ***"identification information."***

Further, the specification only recites "using identification information." There are no details provided in the specification that would provide clarity on the descriptive functionality of the type of "identification information" mentioned in the claims. The remaining claims are dependent claims. These claims are also rejected for being dependent on the above rejected independent claims.

Allowable Subject Matter

6. Claims 1-41, 62, 63, and 66 are allowed.
